

Introducing the `picsec` beamer's theme

Eduardo García-Portugués (egarcia@math.ku.dk),
based on the code of Sylvain Bouveret.

University of Copenhagen

Copenhagen, February, 2015

The picsec theme

- ▶ Created by Eduardo García-Portugués from the progressbar theme of Sylvain Bouveret: recherche.noiraudes.net/en/LaTeX.php.
- ▶ Clear, minimal style with some fancy features: picture for each section, progress bar, stylized title page, good use of space.
- ▶ Feel free to improve it!
- ▶ If you find it useful, you may want to cite it and share with your colleagues as:

García-Portugués, E. (2015). picsec beamer theme.
<https://github.com/edugp/picsec>

- ▶ Feedback and bug reports are greatly appreciated.
